

ABOUT ME

Lives and grew up in Lower Bavaria. Here, the four seasons still characterize the rhythm of life and the „most multifaceted“ dialect in the world sharpens the senses for what is invisible „in between“.

After my apprenticeship as a typesetter, a degree in business administration and several years as managing director of various marketing agencies, I started my own business. Marketing agencies, I became self-employed over 20 years ago and ran an agency with a focus on consulting for strategic communication.

For some years now, I have devoted myself exclusively to research in frontier science fields and conduct intensive research on phenomena of augmented physical reality.

Since my earliest youth, I have been involved with the findings of modern science from many disciplines such as: Evolutionary Theory, Genetics and the insights into biological processes.

My personal mystical and paranormal experiences were the initial spark for my vision: to give interested people a deeper, previously hidden and unknown insight behind the scenes of the expanded reality.

In the constant exchange with friendly scientists, experts and sensitively gifted people, the border of the so far „unbelievable“ is opened more and more and made more transparent.

The found cases of this special kind turn our materialistically coined world view completely upside down. That is also the reason why many mainstream scientists still so extremely give these facts resist.

All these officially documented psychological, pathological and physical anomalies point to a holistic world picture, which is populated by innumerable intelligences - whether with or without body - (as we know him).

Hardly a day passes where I am not informed about a new unbelievable story or a phenomenal happening unknown to us. My researches are by far not yet to end and in the next years, I will still document many of these „impossible realities“ in word and picture.

We live in an incredibly complex creative intelligence system where consciousness - whatever that is exactly - is the basis of all being and we will enter into a more ex-

tensive dialogue with other entities in the future.

A new epoch of sensational developments, both technical and spiritual, has thus just begun.

”
The book I liked very much, is interesting and definitely worth recommending! Suitable for any library. Would introduce as a compulsory book in schools.

THOMAS LEVERS

”
I gave 5 stars with pleasure, because finally someone has summarized this topic and brought it to the public. I find the film very interesting. I recommend the film to everyone and everyone should form his own opinion. Good work Mr. J. Nepomuk Maier!

This DVD is absolutely recommended. If this were to be run in the daily media, it would revolutionize this planet and change our world view completely. EVERYONE should see this DVD and instead of giving meaningless things for Christmas, it would be something SENSEFUL. This planet needs a new zeitgeist and that is exactly what the DVD conveys. It exists MORE than we believe to see!

Peru - Portals to other worlds!

This documentary takes you to the up to 5000 years old cultural sites of the Inca world, the last advanced civilization before the arrival of the Spanish. Peru land full of mysticism and gigantic structures. No one really knows how these bastions of walls, with granite stones weighing up to 140 tons, could be so interlocked. Even after centuries and many earthquakes, no razor blade could fit into the stones joined together without mortar. In the indigenous regions of the country, shamans practice ancient mysterious rituals that reveal that our reality is embedded in a much larger one. Again and again, excavations or grave robbers and finds bring to light discoveries that are as fantastic as they are incredible. Science still tries to maintain previous dogmas and doctrines. Especially the extraterrestrial looking and unknown mummified beings, which were found in the last years in Nazca, are just blowing up our world view of human history. Could it be that we have been and are being visited by non-human beings since time immemorial? The tridactyls of Nazca - three-fingered mummies - are an example that our human history must now be rewritten.

Also in the petroglyph fields you can find depicted beings with three fingers and unknown flying objects. Perhaps they are an indication that our ancestors encountered non-human beings in the past. Where did they go?

Have they left the earth or can we still contact them today. Join us on this journey of discovery into a land of mystery, boundless beauty, and cultural and civilizational upheaval. Enter with us portals into other worlds.

IT ALWAYS DEPENDS ON THE PERSPECTIVE!

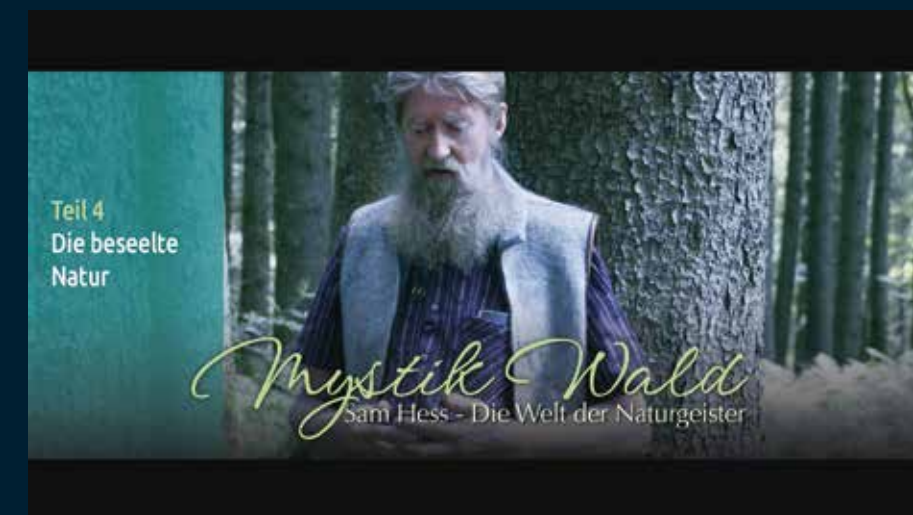

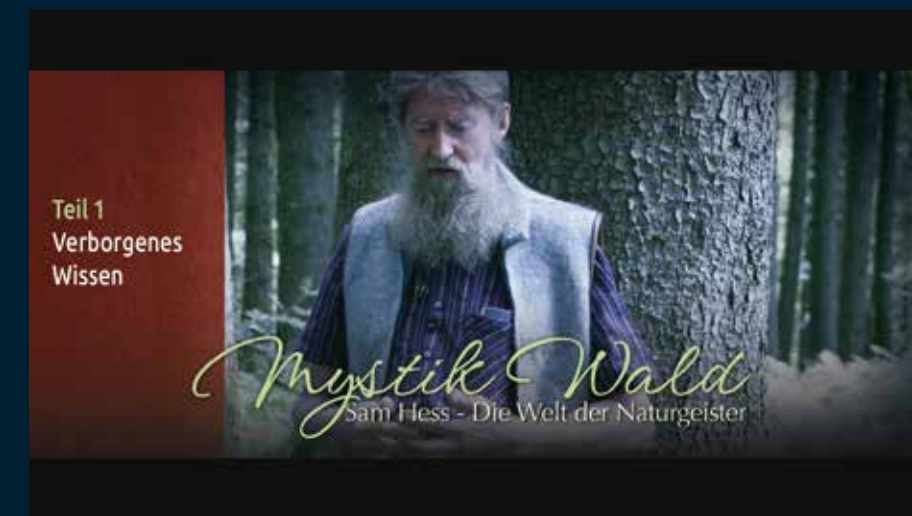

The documented case studies of this extended reality turn our materialistically coined world view completely upside down. This is also the reason, why the mainstream science still give themselves so extremely, these, since 150 years many of best documented facts, denies.

All these psychological, pathological and physical anomalies point to a holistic world view, which is populated by innumerable intelligences - whether with or without body - (as we know him).

Hardly a day goes by where I am not informed of a new incredible story or phenomenal occurrence. My research is far from over and in the coming years, I will probably document many more of these „impossible realities“ in words and pictures and sound.

We live in an incredibly complex creative intelligence system where consciousness - whatever that is exactly - forms the basis of all being and we will enter into a more extensive dialogue with other entities in the future. A new epoch of our civilization, but also of our very personal being, is already visible on the horizon of evolution.

4-part documentary on the theme of mystery forest - the world of nature spirits. Sam Hess is a seer and former forester. He has spent his whole life in the forest and has learned to perceive „nature“ holistically. Just like his father and great-grandfather. His gift to see and communicate with nature beings gives Sam a knowledge that he now gladly passes on to future generations. For this knowledge is beyond what we know. The interaction of the nature spirits in the water, in the earth and in the air explains Sam Hess in an impressive way in this unique documentary series. To be seen on: www.maona.tv

Mankind has once again reached a point in its history where it is allowed to realize that despite all science, the most important things in life cannot be put into words or formulas. If someone has had a near-death experience or was allowed to experience an enlightenment, then he has not only been allowed to recognize the wisdom and the perfection of everything that is, but also the unconditional love of this grandiose creation.

Nothing and nobody will be able to tell him now that what he has seen and felt to the last cell of his being were his fantasies or hallucinations. The one who has gone through this enlightenment knows that there is a much greater reality than this earthly reality.

Everyone would like to know how the future will be. Everyone has their own view of the world and tries to classify events according to their own insights. There have been crises at all times in the history of mankind and at the moment there seems to be no end to them. What has happened that we as a civilization find ourselves in this dramatic phase, which brings enormous challenges both in politics, economics and socially worldwide? Are we living in an apocalypse that has been prophesied for millennia? By which thinking and acting was this brought about? Is there a way out and what insights do we have for the coming scenarios? This documentary has succeeded in building a bridge from outdated thought processes of our species to the intangible realms of being - the new holistic worldview.

Knowledge, Wisdom for centuries preserved, passed on and revealed.

Agustin Edgar Delgado Orea was born in Mexico City, proud of his indigenous roots and his mestizo blood. Because of his extraordinary energetic abilities, he decided to start the shamanic training at the age of 14.

Later he added to his knowledge the subjects of anthropology and neurolinguistic programming. He worked and lived for a long time with shamans of the Americas, the Huicholes, Mayas, Lakotas, Apaches, as well as natives of the Amazon, with Maoris from New Zealand and Tibetan monks from the monastery of Shartse in India.

In 1992, together with Nanita, the ambassador of the Mexican government, of the Nahuatl people, he came to Spain to contribute with his work to the reconciliation between two cultures:

The current Aztec and indigenous Mexican culture and the European culture, which acted as conqueror and destroyer of the pre-Hispanic culture.

As part of this project, Agustin was given the task of creating the „Bridge to Virikuta“, in Europe, a community that the Nagual Carlos Castañeda, called the Blue Tribe of Consciousness.

Agustin traveled around the world in search of the place where he should establish a sacred space, and finally a vision led him to Catalonia, Spain, where, with much work and sacrifice, he bought the house of Armenteras, where he established his center of work and dissemination of his knowledge.

Today Agustin gives seminars, lectures, shamanic initiations and individual therapies such as aura readings, in Spain, Italy, Germany, Switzerland and Austria and promotes ecological projects with his foundation „Ollinyolitzli“.

THANKS!

Almost every day I receive phone calls, emails or messenger messages from people thanking me for my work. They have read my books or watched my documentaries. Many feel confirmed and now also dare to talk about their experiences.

I can only return these thanks heartily, because without your support and without your interest in the (secret) knowledge of this extended reality, my research and my access to the information would certainly be much more difficult.

Only by this big interest and the high attention, it becomes easier and easier to be able to speak and report with well-known researchers about their unusual experiments and realizations.

For this I thank all mystical people I met so far, (all) scientists and sensitives I was allowed to talk to.

Thanks also go to my scientific network of friends and experts, for the constant exchange of knowledge and the comprehensive, profound dialogu
